

American Heart Association®

CEO Roundtable | **10 YEARS** OF IMPACT ON OUR NATION'S HEALTH

AN UNPRECEDENTED LEADERSHIP COLLABORATIVE

Nearly 50 CEOs have joined with the American Heart Association to build a healthy, high performing workforce by tackling the most pressing concerns for their collective 13 million+ employees and family members.

Backed by the scientific guidance of the American Heart Association, CEO Roundtable members can make lasting change by accessing cutting-edge research, piloting solutions and leveraging the thought leadership of world-renowned experts to improve the health and well-being of employees — our nation's most valuable resource.

LEADING BY EXAMPLE

CEO Roundtable members have collectively pledged to support these guiding principles:

1. Model a healthy lifestyle and foster an organizational culture of health.
2. Incorporate evidence-based solutions in employer sponsored health offerings for employees and families.
3. Solve for priority health concerns facing employees and recognize companies for achieving measurable improvements in the health of the workforce.
4. Implement strategies and solutions to break down barriers to health equity in the workplace and in communities.
5. Inspire non-member CEOs to further equitable health and well-being in companies and communities across the nation and around the globe.

CREATING HEALTHIER COMPANIES AND COMMUNITIES

DRIVING EQUITABLE HEALTH FOR ALL

Developing a roadmap and resources for employers while convening business leaders to address costly health inequities.

TRANSFORMING HEALTH CARE

Focusing on improving access, quality, equity and affordability of employer-sponsored health care.

PURSUING INNOVATION

Championing evidence-based approaches to health and well-being including food is medicine programs, AI and data-enabled tools and interventions and digital health delivery.

SUPPORTING BETTER MENTAL HEALTH AND WELL-BEING

Understanding the science and resources to help business leaders prioritize and take action to improve employee mental health and well-being.
